PRODUCT CATALOGUE

YOUR PARTNER IN SAFETY.
EVERY DAY, IN EVERY SITUATION.

It's in our DNA: we work fast, we are always visible and we communicate transparently. In 15 years we have grown into a top-quality workwear company that takes care of you – no matter the weather!

We know the market inside and out. With our years of experience, we develop, we act decisively and pragmatically, resulting in strong price-quality ratios. Our clothing is made for tough workers, with smart details that make the job easier. We produce in China and India and deliver directly from stock. With a central warehouse of 4,500m² in **Dordrecht** and a large inventory, we have what you need – most of it within 24 hours.

OUR MISSION

We supply sustainable, comfortable and safe workwear that helps professionals get the best out of themselves every day.

OUR VISION

We want to be the reliable partner in workwear, known for our quality, service and innovative solutions that contribute to a safer working environment.

**15
YEARS**

**EXPERTISE
WHEREVER YOU
BUILD**

	02	SAFETY STANDARDS EXPLAINED	An overview of the most important European standards	04
	03	WORKWEAR – MULTINORM / FR / HI-VIS	Coveralls, jackets, trousers, rainwear and parkas	05–11
	04	TOOLS & ACCESSORIES	Gloves, hoods, tool lanyards and accessories	12–15
	05	GLOVES	Grip, winter, PU and cut-resistant gloves	16
	06	SAFETY FOOTWEAR	S3 safety footwear and high work shoes	17

SAFETY STANDARDS EXPLAINED

The right PPE and workwear starts with the right standard.

Below you will find the most important European safety standards,

so you can easily determine which protection you need.

EN ISO 20471 HIGH VISIBILITY

- Fluorescent material
- Reflective striping
- Class 1, 2 or 3

High-visibility clothing makes you better visible during the day, in the dark and in situations with low visibility.

EN ISO 14116 FLAME RETARDANT

- Protection against incidental contact with flames
- Index 1 to 3
- Reduced flame spread

Materials that reduce the spread of flames and contribute to extra safety in risky working environments.

EN ISO 11612 HEAT AND FLAME PROTECTION

- Convective heat
- Radiant heat
- Contact heat
- Molten metal

Protects against various forms of heat and flame, including molten aluminium and iron.

EN ISO 11611 WELDING AND ALLIED PROCESSES

- Protection during gas welding and cutting and related processes
- Spatter resistance
- Class 1 or 2

Suitable for welding and related activities where spatter and short-term flame exposure occur.

EN 1149-5 ANTI-STATIC

- Prevents electrostatic discharge
- Suitable for ATEX environments
- Helps prevent fire hazards caused by static electricity

Clothing with anti-static properties helps prevent sudden electrostatic discharge.

IEC 61482-2 ELECTRIC ARC PROTECTION

- Protection against the hazards of an electric arc
- APC 1 / APC 2
- ATPV / EBT

Tested for thermal energy of an electric arc. Essential for work on or near electrical installations under voltage.

EN 13034 CHEMICAL SPLASH PROTECTION

- Type 6 protection
- Protection against light chemical splashes

Clothing offers limited protection against light chemical splashes in the form of a spray.

EN 14058 COLD ENVIRONMENTS

- Protection against cold environments
- Thermal insulation
- Air permeability (option)

Tested for protection and comfort in cold environments with low temperatures.

EN 17353 ENHANCED VISIBILITY

- Not certified as high visibility (EN ISO 20471)
- Medium Risk
- Class A, B or AB

Provides better visibility in situations with medium risk, such as in logistics and industry.

QUALITY

Sustainable materials and responsible manufacturing for reliable protection.

RELIABLE

We do what we say and ensure clear communication and honest advice.

DURABLE

We choose quality materials and products that last. Good for you and the environment.

INNOVATIVE

We continuously look for smart solutions to work safer and more efficiently.

TOGETHER

We believe in strong relationships with our customers and partners.

**O122****Overall Multinorm**

Multi-standard work coverall for professional use in hazardous work environments. This flame-retardant and anti-static work coverall offers protection against heat, flames, and metal splashes and is suitable for the industrial, offshore, and petrochemical sectors, among others.

Key features:

- ✓ Flame-retardant and antistatic according to multi-norm requirements
- ✓ Protection against heat, flames, and iron splashes
- ✓ High collar for extra safety
- ✓ Practical flap pockets with Velcro closure and zipper

T104

Hammer 400 g

Professional 400 g hammer for precise striking, ideal for assembly, metalworking, and general work.

Key features:

- ✓ Forged, hardened steel head for maximum durability
- ✓ Hickory steel for comfort and shock absorption
- ✓ Versatile for use in woodworking, metalwork, and general handyman tasks

T126

Hammer holder

Keep your hammer safe and always within reach.

Key features:

- ✓ Suitable for hammers and bench hammers
- ✓ Safe and organized storage of tools
- ✓ Always quick access during work

T130

Construction site ratchet 19-22mm

This 19-22 site ratchet is a robust and reliable ratchet wrench for assembly and installation work.

Key features:

- ✓ Sizes 19 and 22 mm for wide applicability
- ✓ Ratchet mechanism with left/right switching
- ✓ Awl / centering point for alignment and pins

T131

Ratchet holder

This ratchet holder is specially designed for the safe and organized storage of a 19-22 site point ratchet.

Key features:

- ✓ Especially suitable for construction site ratchet / ratchet wrench 19-22
- ✓ Ensures safe and organized storage
- ✓ Always quick access to your ratchet

T136

Spirit level

Cast aluminium spirit level with one vertical and one horizontal bubble. Robust, accurate, and suitable for professional use.

Key features:

- ✓ Magnetic mounting
- ✓ Smooth milled measuring surface for accurate measurement
- ✓ Vertical + horizontal spirit level for versatile alignment

T137

Spirit level holder

This spirit level holder is specially designed for our own spirit level and offers optimal protection, overview, and ease of use.

Key features:

- ✓ Perfect fit for our own spirit level
- ✓ Protects against scratches, bumps, and wear
- ✓ Ensures overview and efficient working

F121

Tool Lanyard

Elastic tool lanyard with carabiner and tool loop — perfect for securely fastening tools at height.

Key features:

- ✓ Elastic design that moves with you without getting in the way
- ✓ Sturdy carabiner for reliable attachment
- ✓ Suitable for use with various tools

F128

Bungee Tool Lanyard

Elastic tool lanyard (bungee tool lanyard) with swivel carabiner and stretch cord for secure attachment of tools at height.

Key features:

- ✓ Elastic bungee cord for flexibility and minimal hindrance
- ✓ 360° rotatable carabiner prevents twisting
- ✓ Robust attachment loop for tools

Optionally expandable with a Toolyard loop.

Offshore Bag

The Quite Right offshore bag is a robust and practical bag for offshore, industrial, and harsh working environments. Ideal for safely transporting work clothing,

Key features:

- ✓ Especially for offshore & industry
- ✓ Robust quality
- ✓ Spacious storage capacity

T159

Spite bag

The Quite Right wedge bag is a compact and robust tool bag for safely carrying small hand tools.

Key features:

- ✓ Specially designed as a wedge axle
- ✓ Compact and practical
- ✓ Wear-resistant material

H125

Balaclava

Flame-retardant and anti-static ski mask/balaclava according to EN ISO 11612 and EN 1149-5. Comfortable, breathable, and suitable for intensive use.

Key features:

- ✓ Flame-retardant and anti-static for maximum safety
- ✓ Complies with EN ISO 11612 and EN 1149-5
- ✓ Comfortable fit, can also be worn under a helmet

H130

Neck warmer

Practical and comfortable neck warmer that keeps you warm during cold days. Ideal for the man who works outdoors a lot or likes to be active.

Key features:

- ✓ Keeps your neck warm on cold days and in biting winds
- ✓ Complies with EN ISO 11612 and EN 1149-5
- ✓ Breathable material that remains comfortable during exertion

T132

Leather Work Belt 50mm

Discover the robust and durable 50 mm leather work belt from Quite Right – a high-quality belt made of strong black leather, featuring a sturdy metal buckle.

Key features:

- ✓ Professional appearance
- ✓ Durable
- ✓ Comfortable

F101

Lanyard Stowage Point

Cool accessory loop to safely store your lanyard on a harness or belt when not in use.

Key features:

- ✓ Keeps unused lanyard arms out of the way and prevents tripping
- ✓ Sturdy ring/loop that can also support larger hooks
- ✓ Secured via Velcro fastener for easy installation

GL140

Safety glasses clear

Clear safety glasses with scratch-resistant polycarbonate lens, 100% UV protection, and anti-fog coating. Lightweight for intensive use.

Key features:

- ✓ Scratch-resistant and clear lens for excellent visibility
- ✓ 100% UV protection up to approximately 385 nm
- ✓ Anti-condensation treatment prevents fogging due to temperature differences

T139

Leather knife holder medium 36cm Description

Key features:

- ✓ Suitable for insulation knives up to approximately 36 cm.
- ✓ Robust leather construction for long-lasting use.
- ✓ Sturdily riveted construction for extra durability.
